MACHINERY
MANUFACTURING INNOVATION

Our Products

Ak 5

Technical Specification

Wire range (mm) :
1.6 to 5 mm

Wire Speed (m/min) :
35 m/min

Applicability:
Plain wire

Power Consumption (HP) :
5 H.P.

Weight :
500 kg.

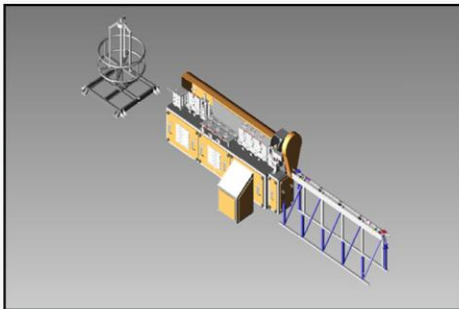

Features

- Pneumatic cutting system.
- Maintenance free design.
- Simple conveyer design.
- After sales service.
- Spindle rpm upto 5000 for better straightening .
- No vibration in machine isolate is mounting in machine.

Our Products

Ak 8" 12"

Technical Specification

Diameter : 6 to 12 mm

Wire Type : TMT

Model Name : AK 8" 12"

Speed : 60m/min

Length up to : 40ft

Power Consumption : 15.5 HP

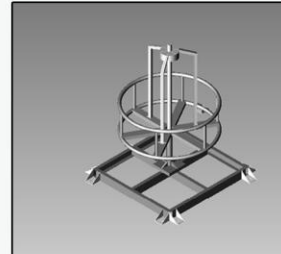

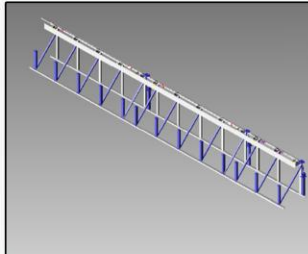

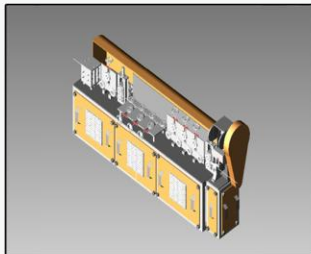

Weight : 2000kg

Pro. Type : TMT wire straightening machine.

Features

- Pneumatic cutting system.
- Maintenance free design.
- Simple conveyer design.
- After sales service.
- Spindle rpm upto 5000 for better straightening .
- No vibration in machine isolate is mounting in machine.

To be an extraordinary manufacturer and supplier in the domain, we offer rugged design TMT Wire Straightening Machine. The offered machine is fabricated under the supervision of our dexterous professionals. These professionals utilize supreme quality spare parts, steel and other metals for manufacturing the quality-tested machines. The machine is widely used in automobile and wire manufacturing plants along with mechanical parts assembling companies.
